www.alsysco.co.za

Manufactured from a high-strength structural grade Aluminium alloy.

Manufacturing and assembly times are reduced in comparison to a single upright slotted security gate.

Uses a unique double upright design coupled together with a coupler bar preventing separation and improving strength and security.

No rivets or slots are visible on the upright profiles improving the overall aesthetics of the gate.

Uses anti-tamper fixing screws to enhance security.

Direct locking for instant security.

Smooth and light sliding action.

Low maintenance.

Available in a wide range of durable and popular architectural colours and finishes.

Sliding & Fixed Barriers available

Product training and manuals are available.

Supported by ALPRO: Alsysco design and estimating software.
